The Counseling and Career Development Center is staffed by professional counselors who provide counseling on a confidential basis as determined by state guidelines. If you become aware that a particular student may benefit from our services, it is important that you refer the student for counseling in a non-threatening manner.

- Be specific about why you are concerned and why you believe the student could benefit from counseling (e.g. student seems depressed, anxious, suicidal, etc.).
- Avoid generalizing that there is something negative or "wrong" with the student's personality when talking to the student.
- Be aware that the student must have the option of refusing the referral for counseling unless the student appears to be suicidal.
- If the student accepts the idea of referral, call the Counseling and Career Development Center for an appointment while in your office. If a counselor is not available to make an appointment, encourage student to either leave a phone number where they can be reached or leave your ext. so that we can get back in touch as quickly as possible.
- If you judge that the situation with the student is urgent and that the student should receive assistance immediately, please make it clear to the Counseling and Career Development Center and we will make schedule adjustments to accommodate the student. You might indicate that you would like an immediate or swift response.
- Finally, after referring a student for an appointment, follow-up with him or her to show your support and concern.
